

## Mycota Cream

### Uses

Treatment and prevention of athlete's foot.

### Dosage

Adults, children and elderly: For treatment: wash and dry affected area and apply night and morning, particularly between the toes, then dust with Mycota Powder. Each day wear clean socks or stockings dusted inside with Mycota Powder. Continue treatment for one week after all evidence of infection has cleared. For prevention: use daily and dust socks or stockings inside with Mycota Powder.
