

Voltarol 140mg Medicated Plaster

Uses

For the local symptomatic and short-term treatment of pain in acute strains, sprains or bruises of the extremities following blunt trauma (e.g. sports injuries).

Dosage

16 years and over: one plaster should be applied to the painful area twice daily, in the morning and in the evening. Maximum daily dose is 2 plasters even if there is more than one injured area to be treated. Limit treatment to 7 days. Under 16 years: not to be used.
