

Wartner Wart and Verruca Remover

Uses

For the treatment of warts and verrucas.

Dosage

Adults and children over 4 years: push foam applicator onto applicator holder and push holder into the aerosol can for 3 seconds. Wait 20 seconds after saturation of the foam to further reduce the temperature. Hold the white tip of the foam applicator onto warts for 20 seconds and verrucas for 40 seconds. The wart or verruca should fall off after 10-14 days. If a wart or verruca should remain 2 weeks after treatment, it may be treated a second or third time. Any warts or verrucas bigger than 7.5mm should be referred to a doctor. 4 years and under: not to be used. Not suitable for diabetics or use during pregnancy. One pen supplies 6 applications.
