

Replens BV Symptoms Relief & Treatment Vaginal Gel

Uses

Effective and long lasting relief of 5 bacterial vaginosis symptoms including odour, discharge, irritation, itch and discomfort. Helps to balance and maintain a healthy vaginal pH. One application provides up to 3 days' relief.

Dosage

Adults: remove the applicator from the sealed wrapper and grip firmly by the thick end. Shake down 4 times to ensure that the contents are at the thin end. Bend the thin pointed end of the applicator back and forth repeatedly. Snap off the thin pointed end of the applicator and discard the break-away tip. While sitting or lying on your back with knees bent, gently insert the open end of applicator well into the vagina. Squeeze the thick end of the applicator firmly 2-3 times to deposit the gel. Remove the applicator and discard in waste container.
